

CONTENTS

SECTION 1: PRACTICAL ASPECTS OF IMMUNOCYTOCHEMISTRY

1. Basic Principles of Immunocytochemistry	3
2. Visualization of an Antigen-antibody Reaction	9
3. Basic Preparation for Immunostaining	14
4. Practical Technique, Quality Control and Troubleshooting in Immunocytochemistry	19
5. Automated Immunostaining	23

SECTION 2: DIAGNOSTIC APPLICATIONS OF IMMUNOCYTOCHEMISTRY

6. Essential Antibodies for Routine Application in Laboratory	29
7. Immunocytochemistry of Effusion	40
8. Immunocytochemistry in Undifferentiated Malignancy and Tumor of the Unknown Primary Site	53
9. Immunocytochemistry in Head, Neck, Salivary Gland, and Thyroid Lesions	72
10. Immunocytochemistry in Lung Tumors	86
11. Immunocytochemistry of Lymph Node	95
12. Immunocytochemistry of Breast Tumors	109
13. Immunocytochemistry of Gastrointestinal Tract Tumors	114
14. Immunocytochemistry of Liver and Bile Duct Tumors	121
15. Immunocytochemistry of Pancreatic Tumors	127
16. Immunocytochemistry of Kidney and Urinary Tract Tumors	131
17. Immunocytochemistry of Ovarian Tumors	138
18. Immunocytochemistry of Soft-tissue Tumors	147
